---

## SUMMARY

I'm a self-taught web developer with a passion for building clean, user-friendly web applications. I've developed two full-stack applications currently in use by companies, gaining valuable hands-on experience on both frontend and backend technologies.

I thrive on problem-solving, learning new technologies, and continuously improving my craft. Now, I'm eager to apply my skills in a professional environment, collaborate with a team, and grow as a developer.

---

## PROGRAMMING SKILLS

- Ruby, Rails
  - NodeJS, ExpressJS
  - JavaScript, React
  - HTML, CSS, Bootstrap, Material UI
  - Git, Github, VSCode,
  - PostgreSQL, MongoDB
  - Postman, rSpec
  - Heroku, Render, GitHub Pages
- 

## PROJECTS

### Bandstand Merchandise Services LTD

*Full Stack Developer*

- Led the design, development and maintenance of both front-end and back-end systems, ensuring seamless integration and a user-friendly experience.
- Implemented robust user authentication and authorisation using JWT, enhancing security and user management.
- Optimised application performance, reducing loading times and improving overall system responsiveness.
- Troubleshooting and fixing critical bugs, ensuring high availability and smooth functionality throughout the project lifecycle.
- Conducted manual API testing using Postman and automated testing using BDD (RSpec).

Technologies: Ruby, Ruby on Rails, PostgreSQL, ReactJS, Material UI

### Fiortech Recruitment Group

*Full Stack Developer*

- Designed and developed the full-stack web application from conceptualisation to deployment, ensuring a modern and scalable solution.
- Collaborated with the company founder to refine requirements and ensure the platform met the business goals and expectations.
- Built responsive and intuitive user interfaces with ReactJS, enhancing overall user experience.

- Developed and integrated backend services using Ruby on Rails, ensuring secure and efficient data handling.
- Integrated advanced search functionalities, allowing users to easily filter and find the most relevant job listings.
- Provided ongoing support and troubleshooting, resolving bugs and issues to maintain user satisfaction.

Technologies: Ruby, Ruby on Rails, PostgreSQL, ReactJS, Material UI

---
